- Number of active borrowers in the first quarter of 2019 was 745,056, representing an increase of 25.8% from 592,358 in the same period of 2018 and a decrease of 13.7% from 863,067 in the fourth quarter of 2018.
- The amount of cumulative borrowers each of whom made at least one transaction on our platform as of March 31, 2019 was 4,580,576.
- Total cumulative registered users reached 25,797,200 as of March 31, 2019.
- Number of active individual investors <sup>[8]</sup> in the first quarter of 2019 was 96,686, representing a decrease of 28.6% from 135,358 in the same period of 2018 and a decrease of 12.9% from 110,973 in the fourth quarter of 2018.
- The cumulative number of active individual investors as of March 31, 2019 was 477,489, compared with 332,674 as of March 31, 2018, and 454,117 as of December 31, 2018.

Mr. Justin Tang, the Founder, Chief Executive Officer and Chairman of the Company, commented, "I'm pleased to report a strong start to the year with a total of RMB9,629 million in loans facilitated during the quarter, RMB776.4 million in net revenue, and non-GAAP net income attributable to X Financial shareholders increasing 39.4% year-over-year to RMB255.8 million. With the worst behind us, investor sentiment is gradually improving as the market recovers and new regulations take hold and force financially weaker and fraudulent firms to shut down."

"Regulators issued the Opinion on Classified Disposal and Risk Prevention of Online Credit Institutions, also referred to

as Document No. 175, earlier this year which has forced out many market participants leaving only the strongest and most compliant standing. A well-regulated industry will provide significant future growth opportunities and generate strong borrower demand for these remaining platforms. The implementation of these new measures across our business remains on track and will significantly strengthen our overall risk controls and ability to identify prime customers and provide best-in-class personal financing solutions."

"We continue to invest in the research and development of new products that will allow us to take advantage of the enormous future growth opportunities in China's personal finance industry. Our recently launched revolving credit product, Xiaoying Wallet, and newly launched platform Xiaoying Online Mall that allows individuals to purchase goods online through loan installments, are performing well and expanding our user base and target market."

"The progress we have made this quarter is strengthening our reputation in the market and improving our ability to attract more institutional investors with high-quality loans on our platform. We will continue to develop deep relationships with institutional investors to fortify our position in the market as a leading fin-tech player in China."

Mr. Simon Cheng, President of the Company, added, "Our compliant operations and strong risk management infrastructure are allowing us to increasingly benefit from market consolidation and the enormous opportunities present in China's personal finance industry. We will continue to work closely with relevant regulatory authorities to ensure we are fully compliant with all new regulations."

"We are pleased to see the quality of the loans facilitated on our platform improve which reflects our strong risk management capabilities and continued investment in risk control infrastructure, including fraud detection, big data analysis, artificial intelligence, and financial modeling technologies. We are also expanding investor acquisition channels to strengthen our funding cost advantage and diversification of funding sources."

"We remain confident in our strategy and the solid foundation we have built to drive sustainable future growth. We will continue to grow our market share and strengthen our position as a leading fin-tech player in China."

Mr. Kevin Zhang, Chief Financial Officer of the Company, commented, "We delivered solid financial results for the first quarter of 2019, with non-GAAP net income attributable to X Financial shareholders increasing by 39.4% year-over-year."

"Xiaoying Wallet grew significantly during the quarter, with transaction volumes of around RMB200 million and number of transactions exceeding 640,000, the majority of which took place in March 2019. Xiaoying Wallet continues to gain strong growth momentum and is expected to increasingly contribute more meaningfully to revenue and net income growth going forward."

"We further expanded our sources of institutional funding and cooperative relationships with banks and trust companies during the quarter. For the three months ended March 31, 2019, funding from non-individual investors (mainly from financial institutions) accounts for 10.4% of total loan facilitated in the period. During April 2019, around 25% of our total new funding came from non-individual investors (mainly from financial institutions). As of April 30, 2019, the credit line for loan transactions facilitated by X Financial granted by financial institution partners was RMB10.8 billion. We expect this line of credit will grow to RMB26.3 billion during the second and third quarters of 2019 as we deepen our cooperation. We are confident in our ability to continue attracting and diversifying our low-cost funding sources with the insured high-quality loans on our platform which will support our long-term growth."

"We made significant progress in diversifying our insurance models we deploy for our loan products. The proportion of loan products guaranteed by ZhongAn decreased to 82.7% in the first quarter from 90% in 2018 and 95% in 2017. Diversifying our insurance structures allow us to better serve and reward investors as we reduce our reliance on a single insurance provider."

"In conclusion, we are pleased with our performance this quarter in building a strong and sustainable business and will continue to improve operational efficiency to create long-term sustainable value for our shareholders."

### **First Quarter 2019 Financial Results**

**Net revenues** in the first quarter of 2019 decreased by 1.6% to RMB776.4 million (US\$115.7 million) from RMB788.7 million in the same period of 2018, primarily due to a change in product mix resulting from a decrease in revenue generated by certain loans under Xiaoying Credit Loan in this quarter, which had carried a high service fee rate in the same period of 2018.

*Loan facilitation service fees under the direct model* in the first quarter of 2019 decreased by 2.0% to RMB626.4 million (US\$93.3 million) from RMB639.5 million in the same period of 2018, primarily due to a change in product mix resulting

from a decrease in revenue generated by certain loans under Xiaoying Credit Loan in this quarter.

*Loan facilitation service fees under the intermediary model* in the first quarter of 2019 decreased by 52.0% to RMB35.2 million (US\$5.2 million) from RMB73.3 million in the same period of 2018, primarily due to a decrease in the total volume of products offered under the intermediary model as the Company shifted its strategy to focus on loan facilitation services through the direct model.

*Post-origination service fees* in the first quarter of 2019 increased by 408.3% to RMB73.0 million (US\$10.9 million) from RMB14.4 million in the same period of 2018, primarily due to a significant increase in transaction volumes of Xiaoying Credit Loan in the last twelve months for loans with a weighted average contractual terms of 10~12 months. Revenues from post-origination services are recognized on a straight-line basis over the term of the underlying loans as the services are being provided.

*Financing income* in the first quarter of 2019 decreased by 31.8% to RMB17.8 million (US\$2.7 million) from RMB26.1 million in the same period of 2018, primarily due to the expiration of certain trusts in 2018, partially offset by newly established trusts in this quarter.

*Other revenue* in the first quarter of 2019 decreased by 32.1% to RMB24.1 million (US\$3.6 million) from RMB35.5 million in the same period of 2018, primarily due to a decrease in guarantee revenue associated with loans facilitated under the Old ZhongAn model<sup>[9]</sup>, which are no longer offered to our customers from September 15, 2017.

**Origination and servicing expenses** in the first quarter of 2019 increased by 16.7% to RMB336.5 million (US\$50.1 million) from RMB288.3 million in the same period of 2018, primarily due to an increase in collection expenses resulting from the increase in loan transactions.

**General and administrative expenses** in the first quarter of 2019 increased by 41.6% to RMB56.3 million (US\$8.4 million) from RMB39.7 million in the same period of 2018, primarily due to an increase in share-based compensation expenses and professional service fees.

**Sales and marketing expenses** in the first quarter of 2019 decreased by 39.2% to RMB30.7 million (US\$4.6 million) from RMB50.5 million in the same period of 2018, primarily due to a reduction in promotion and advertisement.

**Provision for contingent guarantee liabilities** in the first quarter of 2019 was nil, compared with RMB99.2 million in the same period of 2018, primarily because there have been no deteriorations in estimated default rates of the loans subject to guarantee liabilities facilitated in prior periods.

**Provision for accounts receivable and contract assets** in the first quarter of 2019 increased by 8.5% to RMB66.4 million (US\$9.9 million) from RMB61.2 million in the same period of 2018, primarily due to the increase in revenue of loan facilitation service and post origination service in this quarter compared with same period of 2018.

**Income from operations** in the first quarter of 2019 increased by 11.7% to RMB279.1 million (US\$41.6 million) from RMB249.8 million in the same period of 2018.

**Income before income taxes and gain from equity in affiliates** in the first quarter of 2019 was RMB259.4 million (US\$38.7 million), compared with RMB206.9 million in the same period of 2018.

**Income tax expense** in the first quarter of 2019 decreased by 23.8% to RMB49.4 million (US\$7.4 million) from RMB64.9 million in the same period of 2018, primarily because the corporate income tax rate applicable to three major subsidiaries of the Company was adjusted down to 15% as these subsidiaries qualified as high tech enterprises after the second quarter of 2018.

**Net income attributable to X Financial shareholders** in the first quarter of 2019 was RMB213.6 million (US\$31.8 million), compared with RMB142.2 million in the same period of 2018.

**Non-GAAP net income attributable to X Financial shareholders** in the first quarter of 2019 was RMB255.8 million (US\$38.1 million), compared with RMB183.5 million in the same period of 2018.

**Basic and diluted earnings per ADS** in the first quarter of 2019 were RMB1.40 (US\$0.21) and RMB1.32 (US\$0.20), respectively, compared with RMB1.02 and RMB0.94, respectively, in the same period of 2018.

**Non-GAAP net income per basic and diluted ADS** in the first quarter of 2019 were RMB1.68 (US\$0.25) and RMB1.58 (US\$0.24), respectively, compared with RMB1.30 and RMB1.22, respectively, in the same period of 2018.

**Cash and cash equivalents** was RMB1, 555.4 million (US\$231.8 million) as of March 31, 2019, compared with RMB1,069.4 million as of December 31, 2018.

## **Business Outlook**

X Financial currently expects the total loan facilitation for the second quarter of 2019 to be approximately RMB9,500 million. This forecast reflects the Company's current and preliminary views, which are subject to changes.

## **Use of Non-GAAP Financial Measures Statement**

In evaluating our business, we consider and use non-GAAP measures as supplemental measures to review and assess our operating performance. We present the non-GAAP financial measures because they are used by our management to evaluate our operating performance and formulate business plans. We also believe that the use of the non-GAAP financial measures facilitates investors' assessment of our operating performance.

We use in this press release the following non-GAAP financial measures: (1) net income (loss), (2) net income (loss) attributable to X Financial shareholders, (3) net income (loss) per basic ADS, and (4) net income (loss) per diluted ADS, each of which excludes share-based compensation expense. These non-GAAP financial measures are not defined under U.S. GAAP and are not presented in accordance with U.S. GAAP. These Non-GAAP financial measures have limitations as analytical tools, and when assessing our operating performance, investors should not consider them in isolation, or as a substitute for the financial information prepared and presented in accordance with U.S. GAAP.

We mitigate these limitations by reconciling the non-GAAP financial measures to the most directly comparable U.S.

GAAP financial measures, which should be considered when evaluating our performance. We encourage you to review our financial information in its entirety and not rely on a single financial measure.

For more information on these Non-GAAP financial measures, please see the table captioned "Reconciliations of GAAP and Non-GAAP results" set forth at the end of this press release.

### **New Accounting Pronouncements**

On February 25, 2016, the FASB issued Accounting Standard Update ("ASU") No. 2016-02, Leases, which requires lessees to record lease liabilities and right-of-use assets as of the date of adoption and was incorporated into GAAP as Accounting Standards Codification ("ASC") Topic 842. The Company adopted the new standard prospectively effective January 1, 2019, using a modified retrospective basis method under which prior comparative periods are not restated. As of January 1, 2019, the Company had some operating leases for its offices with the remaining contractual terms of 16~46 months. Under the terms of the lease, the Company will pay base annual rent (subject to an annual fixed percentage increase), plus fixed property management fees. The ROU assets were recorded as "Other non-current assets", and the current and non-current portions of the lease liabilities were recorded as "Accrued expenses and other current liabilities" and "Other non-current liabilities" in the Condensed Consolidated Balance Sheets. There was no cumulative adjustment to our retained earnings.
